

CL300 Mountain Climber

ENDURANCE
by Body-Solid

LED Display Console

The bright LED display provides feedback on advanced metrics including Heart Rate, WATTS/Calories, Time, Speed and Distance. 15 integrated programs include four unique interval programs, five preset programs, quick start, time, distance or calorie countdown, heart-rate control and a custom user program.

CL300 Mountain Climber

The Endurance by Body-Solid CL300 Climber delivers a low-impact, total-body workout for home or small gyms. Simulating mountain climbing, it targets all muscle groups, boosts cardio, and improves lung/heart function. Adjustable resistance (16 levels) and three handle positions cater to various users and a smart knob lets users change settings seamlessly during workouts. The climber boasts 15 programs, including interval training, pre-set workouts, and heart-rate control. Light commercial-grade, the CL300 is ideal for dedicated exercise spaces.

Weight: 151 lbs.
Dimensions: 46”L x 44”W x 88”H
